ADVANTAGES

- Elimination of a spectrum of pollutants
- Improving cellular water and nutrient absorption capacity
- Crystalline spring water structure
- Stable bioenergy
- Transfer of anabolic energy when drinking, bathing and showering
- Noticeably softer and fresher taste
- No electricity, no chemicals, no magnets
- Maintenance-free

*„soul of man is like the water:
from the sky it comes, to the sky it
ascends, and down again to
earth it is forced, eternally changing.«*

J. W. v. Goethe

Customer Opinions

ON UMH LIVE

We are now proud the owners of a UMH unit and are totally impressed. The fresh taste alone is convincing. When cleaning the dishwasher, we found hardly any limescale on glasses and the shower water is pleasant on the skin. I'm now curious to see how long it takes the shower walls to be cloudy again ...

Our plumber had met with a distribution partner for Germany at my request and was initially extremely skeptical. The most amusing thing was that after having the taste demonstration, he threw all his doubts out the window and now integrates the UMH products in his range of options!

Christiane Driewer, 2010

Since we have had a water filter with UMH vitalization, everything is different. The water has a wonderful taste. It's soft and it smells good. I drink without needing to be prompted

and then enjoy a glass at any time during the day. It has become my enjoyable habit to take filtered and vitalized water to work.

As I offered a customer who is a real foodie an espresso, he praised: „Your coffee is always a dream, but today it tastes even better. Is that possible?“ Yes, it is. It is simply wonderful!

Susanne Scharff, 2011

The topic of water, as I have often read, is one of the most crucial criteria for our health. Even in the six-week trial with one of your devices, I could describe the positive physical responses with an increased craving of my body for the soft, well-rounded taste of the water. The annoying carrying of boxes was once and for all finished. As a coffee drinker I can also notice that the lime content in my kettle has been reduced and it is much easier to remove what remains. For some time even my two rabbits taste the treated water. A conventional bowl with normal tap water - no revitalization- just sits there.

I would be more than happy to recommend your devices to quality and health conscious people.

Matthias Rothfuß, 2010

Our UMH water system has raised our awareness about the quality of water in general. We can handle it better and have the feeling that it

gives us more energy for the day. It was not the same with the water that we had previously drunk.

Our guests also noticed the outstanding taste. In addition, it is super convenient that the water is drawn fresh from the tap and can be served in a carafe. Previously people had to use these despicable plastic bottles. We are completely satisfied and have not regretted the investment a single day. We can recommend the UMH water treatment without any restrictions.

Uli & Kathrin Breitbach, 2011
